I just spoke with Conrad Pugh, who requested that we inspect his reclamation for the King 1 site, and release his CD. He originally submitted a signed MR-SITE form in late 2011, but had not done the reclamation at that point. He told me that he arranged for the reclamation and seeding to be done by a neighboring trilobite mine operator (Gary Harris), and that the work is ready to be inspected.

Since he submitted a signed MR-SITE form last November, making this is a repeat request, I told Conrad that he wouldn't need to re-submit the BSR form. Can you create a new BSR task with this email?

Peter
